

## Technical Data Sheet

# Enviro Thinners No.7

## Thinning and Cleaning Solvent

### Description

*Enviro Thinner No.7* is a solvent used for thinning and cleaning of certain EnviroSystems products. *Enviro Thinner No.7* should always be used in accordance with the instructions contained in the technical data sheet for the appropriate EnviroSystems product.

### Physical Properties

Refer to *Enviro Thinner No.7* MSDS

### Safety Advice

*Enviro Thinner No.7* contents are flammable. Keep away from naked flame. In the event of fire, extinguish with CO<sub>2</sub>. Always provide adequate ventilation and wear personal protective equipment during application. Avoid breathing vapours and contact with skin. If swallowed, DO NOT induce vomiting. Give glass of water and seek medical assistance. If contacted with skin, wash off splashed material with soap and water. If irritation occurs seek medical advice. Refer to MSDS.

**KEEP OUT OF REACH OF CHILDREN**

### Packaging

*Enviro Thinner No.7* is supplied in 4 L pails and 20 L drums.

### Shelf Life

*Enviro Thinner No.7* is sensitive to temperatures and problems may arise with pressure build up within the drums if exposed to high temperatures for long periods of time. When opening these drums care must be exercised in releasing the internal pressure. The recommended storage temperatures are between 10-25°C.

#### Statement of Responsibility

The technical information and application advice given in this publication is based on the present state of our best knowledge. As the information herein is of general nature, no assumption can be made as to a product's suitability for a particular use of application and no warranty as to accuracy, reliability or completeness either expressed or implied is given other than those required by Commonwealth or State Legislation. The owner, his representative or the contractor is responsible for checking the suitability of products for their intended use.

#### Note:

Field service where provided, does not constitute supervisory responsibility. Suggestions made by EnviroSystems Technologies either verbally or in writing may be followed, modified or rejected by the owner, engineer or contractor since they, and not EnviroSystems Technologies are responsible for carrying out procedures appropriate to a specific application.
