

# SAFETY DATA SHEETS (SDS)

## Enviro CSH

Hazard Identifiers

Version:1

Issued by: Envirosystems Technologies

Date of Issue: October 2019

### SECTION 1 – IDENTIFICATION OF MATERIAL & SUPPLIER

- 1.1 Product Name:** Enviro CSH  
**Manufacturer's Product Code:** N/A
- 1.2 Recommended Use:** Concrete densifier
- 1.3 Company:** Envirosystems Technologies Pty Ltd  
**Address:** 295 Princes Highway St Peters, NSW 2044.  
**Website:** www.envirosystems.com.au  
**Telephone:** +61 2 85958699 (business hours)  
**Fax:** +61 2 85958660
- 1.4 Emergency Telephone:** Info Safe – 1800 638 556, Poisons Centre – 131126
- Other Information:** All information in this SDS is to the best of our knowledge at time of publication. Users of this product should fully review this SDS prior to use to ensure best safety practices. Further information and or clarification can be obtained by contacting our technical department on the above telephone number.

### SECTION 2 – HAZARDS IDENTIFICATION

- 2.1 Hazard Classification:** Classified as **Hazardous** according to WHS Regulations, Australian GHS criteria and a **Non-Dangerous Goods** according to the Australian Dangerous Goods Code.

Class	Category
Skin Corrosion/Irritation	2
Serious eye damage/eye irritation	2

- 2.2 Label Elements**

Signal word

Warning

H-code	Hazard Statements
H315	Causes skin irritation
H319	Causes serious eye irritation.
P-Code	Precautionary Statement - Prevention
P261	Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.
P280	Wear protective gloves/ protective clothing/ eye protection/ face protection.
P-Code	Precautionary Statement - Response
P333, P313	If skin irritation or rash occurs: Get medical advice /

	attention.
P305, P351, P338	If in eyes: Rinse cautiously with water for several minutes, remove contact lenses if present and easy to do so, continue rinsing.
<b>P-Code</b>	<b>Precautionary Statement - Storage</b>
P405	Store locked up
<b>P-Code</b>	<b>Precautionary Statement - Disposal</b>
	None

**2.3 Other Hazards**

Contains trace amounts of Tetrahydro-1,3,4,6-tetrakis(hydroxymethyl)imidazo[4,5-d]imidazole-2,5(1H,3H)-dione which may cause an allergic skin reaction.

**SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS**

**3.1 Substances**

**3.2 Mixtures**

See section below for Mixtures

CAS No.	Material	Content %
10102-24-6	Li <sub>2</sub> SiO <sub>3</sub>	10-30%
5395-50-6	Tetrahydro-1,3,4,6-tetrakis(hydroxymethyl)imidazo[4,5-d]imidazole-2,5(1H,3H)-dione	<0.1%
	Components that do not meet GHS disclosure requirements (deemed non-hazardous)	remaining

**SECTION 4 – FIRST AID MEASURES**

**4.1 Description of first aid measures**

**General Advice:**

Immediately remove contaminated clothing. If in danger of loss of consciousness, place patient in recovery position and transport accordingly. Apply artificial respiration if necessary. First aid personal should pay attention to the own safety.

**Ingestion:**

If swallowed, do not induce vomiting. Rinse mouth with water and give water to drink as much as comfortable able too. Seek medical advice. Do not induce vomiting.

**Inhalation:**

Not usually a risk. However If inhaled, immediately remove the affected person to fresh air. If breathing is difficult, administer oxygen. If breathing has stopped, administer artificial respiration. Call a physician if symptoms are severe or persist.

**Eye Contact:**

While holding eyes open, gently flood with plenty of fresh water for 15 minutes. Washing within one minute is essential to achieve maximum effectiveness. If pain persists or recurs also seek medical attention. Skilled personnel should only undertake removal of contact lenses after an eye injury.

**Skin Contact:**

Flush contacted area thoroughly with soap and plenty of water. Seek medical attention in event of irritation. Remove contaminated clothing including footwear.

**4.2 Most important symptoms and effects, both acute and delayed**

Any relevant information can be found in other parts of this section and in sections 2 and 11.

**4.3 Advice for doctor**

Treat symptomatically.

## SECTION 5 – FIRE FIGHTING MEASURES

- 5.1 Extinguishing media** Suitable extinguishing media:  
Use media suitable to surrounding source of fire.
- Unsuitable extinguishing media that may not be used for safety reasons:  
None.
- 5.2 Special hazards arising from the substance or mixture** Not flammable but after water has evaporated, finely divided dry powders and dust at sufficient concentrations can form explosive mixtures with air. Prevent static discharge. Moisture may cause hydrogen to evolve.
- 5.3 Advice for firefighters** Wear full body protective clothing with breathing apparatus. Reduce spillage from entering drains or water course. Closed containers may rupture due to pressure buildup under fire conditions.

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

- 6.1 Personal precautions, protective equipment and emergency procedures** Secure the area. Wear personal protection equipment (see section 8). Keep unprotected persons away. Avoid contact with eyes and skin. If material is released indicate risk of slipping. Do not walk through spilled material.
- 6.2 Environmental precautions** Do not discharge into sewers or waterways and soil.
- 6.3 Methods and material for containment and cleaning up** Small or major spills should be absorbed with dry, inert filler (soil or sand) which then can be shoveled into appropriately labeled drums for disposal. Disposal of this material should be undertaken by a registered chemical disposal company. Wash area with excess water. If material is dry, avoid breathing dust. Sweep or collect with vacuum equipment approved for use in hazardous locations.
- 6.4 Reference to other sections** Relevant information in other sections has to be considered. This applies in particular for information given on personal protective equipment (section 8) and on disposal (section 13).

## SECTION 7 – HANDLING & STORAGE

- 7.1 Precautions for safe handling** Ensure thorough ventilation of stores and work areas. Handle in accordance with good industrial hygiene and safety practice. When using do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift.
- 7.2 Conditions for safe storage**
- Storage Requirements:**  
Store in a cool, dry and well-ventilated place.
- Temperature Conditions:**  
Up to 40° C and out of direct sunlight.
- Protection from weather:**  
Store undercover and away from frost and moisture
- 7.3 Specific end use(s)** Concrete densifier
- 7.4 Regulations and standards (Australia):** Classified as Non-Dangerous Liquid which should be stored and handled in accordance with regulations

**SECTION 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION**

**8.1 Control parameters**

Exposure limits safe work Australia

Ingredient	STEL	TWA
None known		

Emergency Limits:

Ingredient	TEEL-1	TEEL-2	TEEL-3
None known			

**8.2 Exposure controls**

**General protection and hygiene measures:**

General ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations. Do not eat, drink or smoke when handling. Wash hands at the end of work and before eating. Keep working clothes separately. Remove contaminated, soaked clothing immediately. Clean work areas regularly.

**Personal protection equipment:**

*Respiratory protection*

No generally required, however in the event of sanding respiratory protection must be worn.

*Eye protection*

Chemical goggles. Full face respiratory may be required if exposure causes discomfort.

*Hand protection*

When handling wear chemical resistant gloves. PVC, neoprene or nitrile glove.

*Skin protection*

Overalls clothing. Use of impervious apron and boots are recommended.

*Other Information*

Use barrier creams to protect skin from contact with the material. Always wash hands before smoking, eating, drinking or using the toilet and after finishing work. Observe the usual precautions when handling chemicals.

**8.3 Further information for system design and engineering measures**

Ventilation is recommended under normal use conditions. State regulations on speed and direction of airflow away from operators must be observed. Keep containers closed when not in use.

**SECTION 9 – PHYSICAL & CHEMICAL PROPERTIES**

<b>9.1 Odour:</b>	Not determined
<b>Odour Threshold</b>	Not determined
<b>Colour:</b>	Transparent
<b>Physical State:</b>	Liquid
<b>Flash Point:</b>	Not determined
<b>Autoignition Temperature:</b>	Not determined
<b>Boiling Point:</b>	100°C
<b>Melting Point:</b>	Not determined
<b>Specific Gravity:</b>	1.15-1.25
<b>pH:</b>	10-12
<b>Solubility in Water (g/L):</b>	Soluble
<b>Flammability:</b>	Not flammable
<b>Lower Limit:</b>	Not determined
<b>Higher Limit:</b>	Not determined
<b>Vapour Pressure:</b>	Not determined

# SAFETY DATA SHEETS (SDS)

## Enviro CSH

9.2	Vapour Density (Air = 1) Other information	Not determined None available
-----	---	----------------------------------

### SECTION 10 – STABILITY AND REACTIVITY

10.1	Reactivity; Chemical stability; -3 Possibility of hazardous reactions	Stable when stored and used as directed. Protect from frost.
10.4	Conditions to avoid	Strong oxidizing agents
10.5	Incompatible materials	Strong acids, bases and oxidizing agents
10.6	Hazardous decomposition products	Oxides of carbon and other possibly toxic fumes from fire once water has evaporated

### SECTION 11 – TOXICOLOGICAL INFORMATION

#### Acute Toxicity/Effects

#### Enviro 200P ULTRA: estimate based on ingredients

##### *Acute toxicity*

amorphous silica fume Oral rat LD50: 3160 mg/kg  
amorphous silica fume Intraperitoneal -rat LDLo: 50 mg/kg  
amorphous silica fume intravenous -rat LD50: 15 mg/kg  
amorphous silica fume intratracheal -rat LDLo: 10 mg/kg

##### *Acute dermal toxicity*

Non toxic

##### *Acute inhalation toxicity*

No data available.

##### *Skin corrosion/irritation*

Causes skin irritation

##### *Serious eye damage/eye irritation*

Causes serious eye irritation.

##### *Sensitization*

Contains a known skin sensitizer at trace levels.

##### *Aspiration hazard*

This material has been classified as non-hazardous.

#### Chronic Toxicity/Effects

#### Estimate based on ingredients

##### *Specific target organ systematic toxicity (single exposure)*

No data available.

##### *Specific target organ systematic toxicity (repeated exposure)*

No data available.

##### *Genetic toxicity*

This material has been classified as non-hazardous.

##### *Carcinogenicity*

No data available.

*Reproductive toxicity*  
No data available.

*Teratogenicity*  
No data available.

**Long Term Effects:** No data available.

## SECTION 12 – ECOLOGICAL INFORMATION

<b>Toxicity</b>	<b>Estimate based on ingredients</b> No Data Available The product is not expected to be hazardous to the environment.
<b>Persistence and degradability</b>	The degradability of the product has not been stated.
<b>Bioaccumulative potential</b>	No Data Available
<b>Mobility in soil</b>	This product is water soluble and may spread in water systems.
<b>Additional Information</b>	Do NOT discharge into sewer or waterways.

## SECTION 13 – DISPOSAL CONSIDERATIONS

<b>13.1 Waste treatment methods</b>	<b>Material Recommendation:</b> Material that cannot be used, reprocessed or recycled should be disposed of in accordance with Federal, State, and local regulations at an approved facility. Depending on the regulations, waste treatment methods may include, e.g., landfill or incineration.  <b>Uncleaned packaging Recommendation:</b> Completely discharge containers (no tear drops, no powder rest, scraped carefully). Containers may be recycled or re-used. Observe local/state/federal regulations. Uncleaned packaging should be treated with the same precautions as the material.
-------------------------------------	---

## SECTION 14 – TRANSPORT INFORMATION

<b>Transport Information</b>	Not classified as a <b>Non-Dangerous Good</b> according to the Australian Code for the Transportation of Dangerous Goods by Road and Rail. U.N. Number: N/A DG Class: N/A EPG card: N/A Hazchem Code: N/A Proper Shipping Name: N/A. Packing Group: N/A
<b>Classification for SEA transport (IMO-IMDG)</b>	U.N. Number: N/A DG Class: N/A Proper Shipping Name: N/A. Packing Group: N/A Marine Pollutant: No

# SAFETY DATA SHEETS (SDS)

## Enviro CSH

Classification for AIR  
transport (IATA/ICAO)

U.N. Number: N/A  
DG Class: N/A  
Proper Shipping Name: N/A  
Packing Group: N/A

Label: None

### SECTION 15 – REGULATORY INFORMATION

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

National and local regulations must be observed. For information on labeling please refer to section 2 of this document.

**Poisons Schedule Number: N/A**

**Australian Inventory:  
Controlled Schedule  
Carcinogenic Substances:**

Listed  
Not listed substances

### SECTION 16 – OTHER INFORMATION

Safety Data Sheets are updated regularly. Please ensure you have a current copy. SDS can be obtained from our website: [www.envirosystems.com.au](http://www.envirosystems.com.au)  
The SDS should be used to assist in the Risk Management. Many other factors determine whether the reported Hazards are risks in any given workplace.  
Specific Risks may be determined by reference to various Exposure Scenarios, Scale of use, Frequency of use and current or available engineering controls must be considered.  
This document belongs entirely to Enviro Systems Pty Ltd and apart of the use of it for the purposes of private study, research, review or criticism, no part may be reproduced or re-used without prior permission from ENVIROSYSTEMS.
